Junior Computer Science (Cybersecurity and AI threads) transfer student at Georgia Institute of Technology seeking a software engineering role to leverage technical and interpersonal skills.

EDUCATION

Georgia Institute of Technology <i>B.S. in Computer Science: Cybersecurity & AI</i> – Transfer student from University of Kansas. Studying Computer Science with Cybersecurity and AI threads.	Atlanta, GA Aug. 2026 - Expected May 2028
University of Kansas <i>B.S. in Computer Science & Cybersecurity Engineering, Honors College</i> – 3.9 GPA — Relevant Coursework: Programming 2 (Python), Software Engineering, Discrete Structures, Embedded Systems, Data Structures & Algorithms	Lawrence, KS Aug. 2024 - May 2026
Menlo-Atherton High School <i>High School Diploma, 4.08 GPA, 6 AP Courses</i>	Menlo Park, CA May 2024

PROJECTS

TURT: Custom Unix Shell 🐙 <i>C, Linux System Calls, Makefile</i> – Built a functional command-line interpreter (shell) in C that parses and executes user commands. – Implemented process control using Linux system calls (fork, execvp, wait) to manage child processes and memory. – Designed a custom tokenizer to handle command-line arguments and dynamic memory allocation.	Oct. 2025 - Present
Health & Wellness Game: Get Big, Man (HackKU 25 Winner) 🐙 <i>C#, Unity, FL Studio</i> – Collaborated in a 4-person team to develop a roguelike game promoting physical and mental wellness. – Implemented progression and AI in Unity; created original soundtrack; won HackKU Best Beginner Project .	HackKU 2025
Personal Portfolio Website 🐙 <i>HTML, CSS, JavaScript</i> – Implemented dynamic UI features using vanilla JavaScript. Styled with modern CSS (Flexbox, Grid, and variables). – Deployed via GitHub Pages with a custom domain (lucasroot.org).	Sep. 2025 - Present
CLI Task Manager 🐙 <i>Rust, Serde</i> – Developed a terminal-based note manager to practice Rust's memory-safety paradigms and strict type system. – Implemented data serialization features and an interactive command loop for task management.	Nov. 2025 - Present

EXPERIENCE

Founder & Lead Developer <i>journé/chilltime</i> – Founded and manage a clothing brand; oversee design, web dev (Rust, SQLite, HTML, Stripe), sourcing, and finances.	Dec. 2024 – Present Menlo Park, CA
Navy Midshipman <i>US Navy ROTC, University of Kansas</i> – Completed New Student Indoctrination and Orientation; recognized for leadership potential.	Aug. 2024 – Dec. 2024 Lawrence, KS
Waiter / Busboy <i>Dessert Republic</i> – Provided customer service in a bilingual (English/Cantonese) environment at a family-owned restaurant.	Jun. 2022 – Nov. 2022 San Mateo, CA

LEADERSHIP & AWARDS

Varsity Rower, GT Crew <i>Georgia Institute of Technology</i> – Rowed as a varsity athlete.	Aug. 2026 – Present Atlanta, GA
President and Varsity Rower, Kansas Crew <i>University of Kansas</i> – Led logistics, recruitment, fundraising, finances, and community partnerships; organized regattas and team events. – Rowed as a varsity athlete, competed nationally in 4+ and 1x events.	Aug. 2024 – Jul. 2026 Lawrence, KS
Varsity Rower, Norcal Crew <i>Norcal Crew</i> – Competed nationally (13th at 2023 Head of the Charles); coached novice rowers ages 11–15.	Aug. 2019 – May 2024 Redwood City, CA
KU Excellence Scholarship <i>University of Kansas</i>	2024
Biliteracy Recognition Award (English & Spanish) <i>Menlo-Atherton High School</i>	2024

TECHNICAL SKILLS

Languages: Java, Python, C, C++, C#, HTML, CSS, JavaScript, PHP, LaTeX
Tools: Git, GitHub, Linux, SSH, VSCode, Docker
Languages Spoken: English (native), Spanish (biliterate), Cantonese (conversational)
